16 August 1995

INFORMATION CIRCULAR

To: Members of the staff at Headquarters

From: The Assistant Secretary-General for Human Resources Management

Subject: (a) REVISED SALARY SCALE FOR STAFF IN THE TRADES AND CRAFTS CATEGORY AT HEADQUARTERS, AND RESULTS OF THE SALARY SURVEY CONDUCTED FOR THE SECURITY SERVICE CATEGORY*

(b) REVISED DEPENDENCY ALLOWANCES FOR STAFF IN THE GENERAL SERVICE, LANGUAGE TEACHER, PUBLIC INFORMATION ASSISTANT, TRADES AND CRAFTS, AND SECURITY SERVICE CATEGORIES AT HEADQUARTERS

1. In accordance with article 12 of its statute, the International Civil Service Commission (ICSC) undertook a comprehensive survey of the best prevailing conditions of employment in New York for the purpose of making recommendations to the Secretary-General on salary scales of staff in the Trades and Crafts and Security Service categories at Headquarters. The representatives of the administration and the staff actively participated in all aspects of the survey, including, inter alia, the selection of employers and jobs to be surveyed, and subsequent collection and analysis of data. The Commission completed its work at its July 1995 session and has made its recommendations.

2. I am pleased to announce that, after considering the recommendations of the Commission, as contained in the report of the July 1995 session, the Secretary-General has decided to promulgate a revised salary scale for staff in the Trades and Crafts category at Headquarters proposed by ICSC. The Secretary-General has further decided that this scale should be implemented with effect from 1 September 1994. The revised salary scale is annexed to this circular.

* Personnel Manual index No. 3124.

95-24119 (E) 210895 220895

/...

3. The Commission concluded that the results of the survey for the Trades and Crafts category warranted a 1.4 per cent increase over current (1 September 1993) net salaries. Although the date of implementation should have been 1 January 1995 since salary data collected by the Commission related to that month, the Secretary-General has approved the salary scale with effect from 1 September 1994 in order to reflect the date on which a cost-of-living adjustment would have been implemented.

4. The analysis of the data collected for the Security Service category indicated that United Nations salaries are 4.3 per cent higher than those in the labour market. Thus, in accordance with established procedures the salary scale currently in effect remains unchanged. Survey data indicated, however, that the comparators retained will be adjusting their salaries early next year. Thus, the Commission approved the conduct of a mini-survey for this category of staff which will be implemented with effect from 1 January 1996. The survey is intended to capture the latest movement of salaries of the retained employers.

5. The procedures for effecting interim adjustments of the salary scale for the Trades and Crafts category continue to call for an adjustment in net salaries by 90 per cent of the movement of the consumer price index (CPI) for New York, whenever the CPI has increased by 5 per cent over the level reached at the time of the previous revision, or every 12 months, whichever comes first.

6. The Commission has also recommended revised amounts of dependency allowances in the context of the 1995 surveys of best prevailing conditions of employment for staff in the General Service, Language Teacher, Trades and Crafts, and Security Service categories. The dependency allowances have been revised with effect from 1 January 1995 as follows:

		$
(a)	Dependent spouse allowance	3 038
(b)	Dependent child allowance	1 181
	Except for the first dependent child of a single, widowed or divorced staff member	3 038
(c)	Secondary dependant's allowance	1 181

7. The implementation of the revised salary scale for the Trades and Crafts category, and the revised amounts of dependency allowances for the General Service and related categories will be reflected in the payroll at the end of August 1995. Former staff members in the Trades and Crafts category who left the service of the United Nations between 1 September 1994 and 31 July 1995 will be eligible to receive the retroactive increases that have resulted from the implementation of the revised salaries upon presentation of a written claim to their former executive offices. Such claims must be made within one year of the date of issuance of this circular.

Annex

SALARY SCALE FOR STAFF IN THE TRADES AND CRAFTS CATEGORY AT HEADQUARTERS

(in United States dollars)

With effect from 1 September 1994

Increments: Salary increments within the levels shall be awarded annually on the basis of satisfactory service.

* Long-service step:

The qualifying criteria for an in-grade increase to the long-service step are as follows:

(a) The staff member should have had at least 20 years of service within the United Nations common system and five years of service at the top regular step of the current grade;

(b) The staff member's service should have been satisfactory.

a/ The revised gross pensionable salaries are lower than the gross salaries in effect as of 1 September 1993. Therefore, the above gross salaries are retained for purposes of computing pension contributions and benefits for staff members in service prior to 1 August 1995. However, for purposes of computing separation payments, the gross salaries in effect as of 1 September 1994 shall apply.
